

**DEVELOPERS
DAY '25**

Hackathon

Overview:

Welcome to the Think Creative Hackathon, a dynamic two-day event dedicated to fostering innovation, problem-solving, and creativity. This competition challenges participants to think critically, collaborate, and present inventive solutions to real-world problems.

Format:

The competition consists of a single 24-hour round. Participants will receive the problem statement 24 hours before the evaluation. They may use AI and the Internet to enhance their work but must ensure originality. On the event day, they must present their idea along with their product/prototype.

Rules:

- Internet access will be allowed throughout the competition venue.
- Participants can use any Programming Framework.
- The decision of the Judges will be final.
- Instructions will be provided on a designated platform.
- Edibles are strictly prohibited in the competition venue
- Plagiarism will result in disqualification
- Disturbance or misconduct with any invigilator or fellow competitors
- Teams are required to bring the laptops with them to the competition.
- All required software must be available on the laptop beforehand.
- The competition will be started on time. All teams are expected to arrive on time or earlier to get a head start on instructions. Strict Punctuality will be observed.
- The organizers reserve the right to modify the rules or competition parameters in case of unforeseen challenges, technical difficulties, or circumstances beyond their control. Any changes will be communicated promptly to all participants to ensure fairness and transparency
